

Help PREPare the lawyers of tomorrow - join the CPLED team!

Think about a time early in your career – was there a particular coach or mentor who made a difference to you? The Practice Readiness Education Program (PREP) is your opportunity to make a difference to Manitoba Articling students participating in the Bar admission program.

Over the past year, the Canadian Centre for Professional Legal Education (CPLED) has been on an exciting journey. Incorporating feedback and data from students, lawyers, other professionals and the latest educational practice, CPLED has sculpted a new type of Bar admission program to better reflect the legal landscape.

Built on best practices around the world, PREP delivers practical skills and competencies in an integrated approach that combines interactive, transactional learning and simulation within four distinct phases, each providing students with an opportunity to interact with lawyers, facilitators and even simulated clients to improve their competencies.

First, why join the team?

Why should you join the team as a paid member of the program?

- You'll have an exciting position that allows you to give back to your professional community by helping to train the lawyers of tomorrow
- You can choose opportunities that best fit your schedule

What are the opportunities?

- **Foundation Module Facilitators**
provide support online as students work through the foundation modules.
- **Foundation Workshop Facilitators**
guide students through face-to-face workshops, providing oversight and leading group activities and discussions.
- **Virtual Firm Assessors**
provide feedback on assignments completed by students in the virtual law firm environment. Lawyers with experience in specific practice areas (criminal, family, real estate and business law) are required for these roles.
- **Practice Managers**
provide students with coaching and mentorship as they move through the Virtual Law Firm. As well as reviewing assessments to provide further feedback and advice on areas for improvement within the program.
- **Capstone Assessors**
mark assignments completed by students during the final phase of PREP, the Capstone session, a weeklong, face-to-face session where students will work through a simulated matter.

Who should apply?

A minimum of five years of practice in Alberta, Manitoba, Nova Scotia and/or Saskatchewan is a basic requirement for most roles. For more information regarding other required skills and qualifications, visit [CPLED's website](#).
